CHICAGO PRODUCE MARKET.

CHICAGO, July 7 .- [Special Telegram to the BEE. |- There was a good demand for spot room for grain by the lake to-day, but there was plenty of tonnage here and more arrivals were anticipated, and rates were \(\)c per bushel under those of yesterday, which were regarded as exceptionally low. Room was taken at 3%c for corn and 4c for wheat to Buffalo. Agents placed a liberal amount for corn and wheat and a small charter each of oats and flax were reported. The engagements included 330,000 bushels of wheat, 96, 000 bushels of corn, 22,000 bushels of oats and 25,000 bushels of flax seed. There was very little in outside reports to influence trading in grain in Chicago to-day. At New York early the markets were stronger for wheat, and at St. Louis they were weaker. The weather map did not show any present rainfall to speak of and operators again begin to regard the crop situation as questionable except for corn. The firmer feeling which prevailed in the leading grain markets yesterday was only partly sustained here to-day. Compared with the closing prices at 1 o'clock vesterday the prices at noon to-day were 14c better for August wheat, steady for August corn and 1/4c better for August oats. Other futures were relatively the same. The highest prices of the day were reached about 11 a. m., when trading was moderately ac-tive, but duliness and lower prices came together before the close.

Wheat enjoyed natural activity for a few hours to-day, perhaps the best feeling shown in that pit since the great collapse of June 14 and 15. The spirit of wrecking was not so manifest us usual of late, and operators engaged in buying as if there was a better faith in grain itself. Prices stiffened quite noticeably and for a time there was quite an eagerness to take wheat for August and September delivery. August opened 3/c better than the close-72%c-and went up to 72%c, the the close—72%c—and went up to 72%c, the highest. September also opened %c better than the closing price yesterday and sold up to 74%c. At the same time October reached 70%c and December reached 70%c. The crowd seemed to think these good prices to unload small amounts and the result was a slight reaction, leaving August at 72%c, September at 74%c, October at 76%c and December at 70%c. The receipts at this point were but 16,000 bushels, with 166,000 bushels snipments.

Trading in corn during the early hours was at prices about on a level with the close o at prices about on a level with the close of yesterday. It was nearly noon when dullness and heaviness set in and the leading futures declined 1/2c and the more deferred moved down but a fraction. August sold from 301/2c down to 303/2c, September went from 373/2c to 371/2c, October opened higher at 39c, but closed at 373/2c, May was steady at 398/2c.

Paovisions remained in the same listless condition as on yesterday. The knowledge that stocks of pork, lard and short ribs are controlled by a few parties deters speculators from indulging in free short selling, and at the same time they are indisposed to buy heavily for fear of being unloaded on. Hence prices were confined to a narrow range, and at the close short ribs were the same as yesterday, but lard was 244,050 laws. A near terday, but lard was 2½@5c lower. August lard sold at \$6.42½@5c lower. August lard sold at \$6.42½@6.45, and ribs at \$7.55@7.60. The latter closed at \$7.60. November lard sold at \$6.50 and at the close there were sellers at \$6.45; the year lard, \$6.37½. The year pork sold sparingly at \$11.00; cash quotable at \$15.00@16.00.

CHICAGO LIVE STOCK.

CHICAGO, July 8 .- [Special Telegram to the BEE. |-CATTLE-Trade was fair, with little or no change in prices as compared with yesterday. Light and handy cattle had the call. Some salesmen were of the opinion that light and grassy cattle sold a shade lower. Then there were others that held the reverse as about the state of the market. Buyers for Eastman, of New York, for Monroe and others were making up train loads down as low as \$3.65@3.85, rarely paying much over \$4.00, and as good stock as ever went over the scales sold round about \$4,1000 4.25, a few fancy going as high as \$4.40, with 4.25, a few fancy going as high as \$4.40, with prime stillers averaging over 1300 lbs at \$4.35. The hot weather and greater risk in handling big cattle on account of danger in not cooling out had something to do with the slow demand. Then, again, heavy beef is not desirable in warm weather. Texans were about the same as heretofore. The stocker and feeder trade presented no new features. Veal calves are coming in freely. Shipping steers, 1350 to 1600 lbs, \$3.70@4.40; 1300 to 1350 lbs, \$3.00@4.10; 950 to 1200 lbs, \$3.30@3.75; stockers and feeders, 15c lower at \$1.50@3.00; cows, bulls and mixed, bulk, \$2.00@2.35; Texas cows, \$1.85@ @2.30; steers, \$2.30@3.00; Indians, \$3.00@4. @2.30; steers, \$2.30@3.00; Indians, \$3.00@

Hogs-Business was active with little or no change in prices as compared with yester-day, the great bulk selling within a range of \$5.15@5.20, a few butchers' weights making \$5.25, and the New 1 ork sort at \$5.25.

FINANCIAL

NEW YORK, July 8 .- | Special Telegram to the BEE. |- STOCKS-The New York stock market continues in the same dull and unsatisfactory condition as noted during the three preceeding days. The feeling among operators is decidedly mixed. Room traders are chiefly bearish and their opinions would fill columns. The recent disturbing influences in unancial circles deters the public from buying shares except when some favorite dividend stock is unusually cheap. But, unfortunately, the amount of investment buying is so small that it hardly attracts attention. There is no bull leader and the bears work the market up and down within a moderate range, selling on every advance and buying on declines. The market appears to be fed with a sufficient quantity of long stocks from discouraged holders to cause the bears no uneasiness when they want to cover, and so long as this condition of affairs lasts commission people say there is no use in looking for anything except a dog day market. London was 1624 per cept higher on a half dozen stocks, but 1624 per cent lower on St. Paul and Louisville & Nashville. Selling orders were sent from

London to New York, and as the market at the latter city opened weak at declines extending to 1% per cent, the selling orders materially assisted the forcing of prices still lower, and during the first hour further declines of 36% per cent were noted, Grangers were especially weak, owing to the uncertainty regarding the crop prospects. They have recently been advanced on large prospective earnings, but fears of damage to crops make many holders who got in at the top rather anxious to get out. The disappearance of \$10,000,000 of the Northwestern surplus to be used for betterments knocks the last vestige of hope from under those who bought it expecting increased dividends, and the disposition of such holdings caused a drop of 11/4 per cent. St. Paul broke 11/4 per cent. The talk about the Baltimore & Ohio deal continues, but it has not been consummated and the street is still in the dark about it. They are becoming tired of having it continually brought to the front New England railled 14 per cent at the start, but broke 13 per cent. Gould and Sage have made heavy purchases of New England with a view of obtaining control and connecting it with Manhattan Elevated. GOVERNMENTS-Government bonds were
